Product Description

Corner Joint Aluminium Hardware For 70 Series Doors And Windows Frame And Sash

Product Overview

This aluminum hardware joint corner is specifically designed for connecting the frames and sashes of 70 series doors and windows. Made from high-quality 6063-T5 primary aluminum, it ensures durability and corrosion resistance while providing precise, secure connections that enhance structural stability.

Key Features

- Precision-engineered for 70 series doors and windows
- Durable 6063-T5 primary aluminum construction
- Corrosion-resistant for long-lasting performance
- Enhances structural integrity of door/window assemblies
- Supports smooth operation over extended periods
- Available with optional surface treatments
- Custom mold options available

Technical Specifications

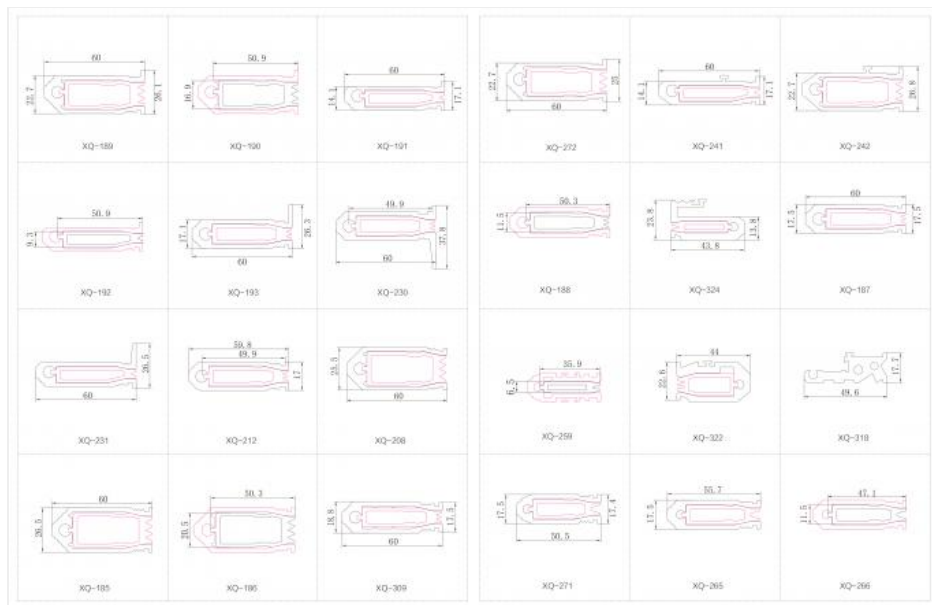

Attribute	Value
Material	6063-T5 primary aluminum
Color	Primary Colors
Surface Treatment	Optional aluminum surface/surface sandblasting
