Product Description

H10mm Aluminum Corner Joint For Double Glazed Tempered Glass Sliding Entrance Door

Product Overview

This 10mm height aluminum corner joint is a crucial component for ensuring the stability and durability of double glazed tempered glass sliding entrance doors. Made from high-quality 6063-T5 primary aluminum, it provides a secure connection between aluminum frames and tempered glass panels, enhancing overall door strength while maintaining a sleek, modern aesthetic.

Key Features

- Precision-engineered 10mm height design
- Made from durable 6063-T5 primary aluminum
- Provides structural stability for sliding entrance doors
- Available in standard and custom sizes
- Optional surface treatments available
- Modern design complements contemporary architecture
