Product Description

Aluminum Corner Joint Bracket For Aluminum Alloy Balcony Door Frame Casing

Product Description

The Aluminum Hardware Corner Joint Bracket is a crucial component for ensuring the stability and durability of balcony door frame casings. Made from high-quality 6063-T5 primary aluminum, this bracket provides a strong, reliable connection at casing corners, preventing sagging or misalignment. Its corrosion-resistant construction makes it ideal for outdoor balcony applications.

Key Features

- Material: 6063-T5 primary aluminum
- Function: Corner joint connection for door/window frames
- Durable and corrosion-resistant construction
- Prevents frame sagging and misalignment
- Suitable for outdoor balcony applications
- Support for mold customization available
