Product Description

V Type Slim Aluminium Profile Inner Connectors Height 15mm For Office Buildings

Product Overview

High-quality V-shaped aluminium corner connectors designed for professional window and door frame installations in office buildings, hotels, and residential properties.

Key Features

- Material: 6063-T5 primary aluminum for durability and corrosion resistance
- V-shaped design provides stable connections for window frames
- Modern design suitable for contemporary architectural styles
- Easy installation with minimal maintenance requirements
- Enhances structural stability and aesthetic appearance
- Available in standard primary colors with optional surface treatments

Technical Specifications

Attribute	Value
Product Name	Aluminum Corner Joint
Material	6063-T5 primary aluminum
Height	15mm
Color	Primary Colors
Surface Treatment	Optional aluminum surface/surface sandblasting
Warranty	3 years
Packing	500pcs/carton or customized options available

Applications

Ideal for various aluminum or UPVC window and door systems including:

- Casement windows
- Swing sliding windows/doors
- French doors and windows
- Hinged doors and windows
- Office building installations
- Hotel and residential projects

Installation Guide

1. Ensure window frames are clean and properly aligned
2. Position the aluminium corner at the joint where frames meet
3. Secure firmly using appropriate screws or rivets
4. Check for proper alignment and adjust if necessary
5. The installed corner provides strong, durable connections
