Product Description

90 Degree Aluminium Corner Connector For Door And Window Frame And Sash

Product Overview

This 90-degree connecting corner joint is made from durable aluminum hardware, designed for both door and window frames and sashes. The aluminum construction ensures longevity while maintaining a sleek appearance, providing essential structural support for proper 90-degree connections in door and window assemblies.

Key Features

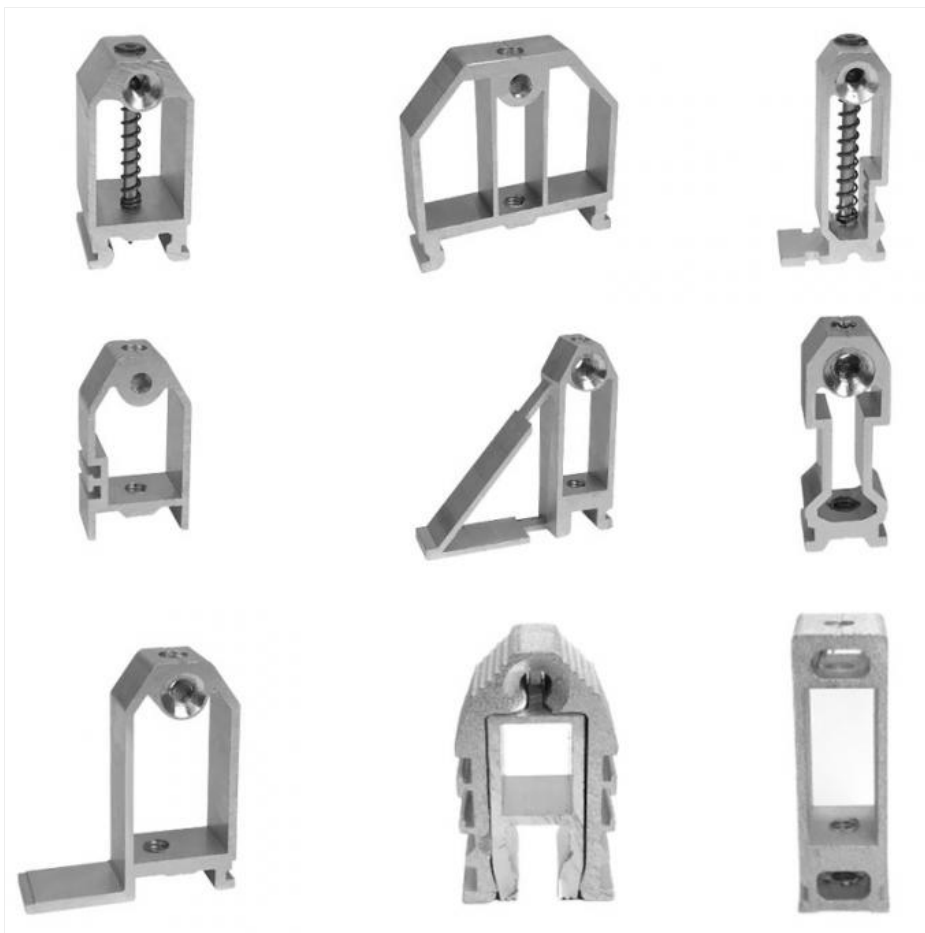

- Material: 6063-T5 primary aluminum for superior durability
- Precision 90-degree frame connection
- Resistant to wear and tear for long-lasting performance
- Available with optional surface treatments (aluminum surface/sandblasting)
- Supports mold customization for specific project requirements
