Product Description

1800*38*1.2 mm Stainless Steel 304 Continuous Long Piano Hinges for Doors and Windows Furniture Hardware

Description

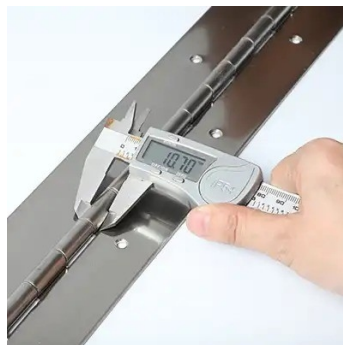

An 1800×38×1.2mm Stainless Steel 304 Continuous Long Piano Hinge is a precision-engineered hardware component designed for doors, windows, and furniture requiring durable, long-span hinging. Crafted from premium 304 stainless steel, this hinge features an extended 1800mm length, 38mm width, and 1.2mm thickness, balancing structural integrity with lightweight versatility. The continuous design ensures seamless support across large fixtures, while the 304 stainless steel construction offers excellent corrosion resistance for indoor and outdoor use—ideal for humid environments or coastal applications. With a 1.2mm thickness, it provides reliable load-bearing capacity for medium to heavy-duty needs, such as commercial windows, large cabinet doors, or custom furniture pieces. Pre-drilled holes (if included) enable straightforward installation, distributing weight evenly to minimize stress on mounting points. Its sleek finish and robust build make it a versatile choice for architectural, residential, and industrial settings, combining functional reliability with aesthetic appeal.
