Product Description

Aluminium Double-Hole Corner Connectors for 50 Series Sliding Door & Window Door & Window Accessories

Product Overview

The **Aluminium Double-Hole Corner Connector** is an essential structural accessory engineered for **50 Series aluminium sliding doors and windows**. These precision L-shaped brackets provide **robust 90-degree corner reinforcement** for frame and sash assemblies. Crafted from durable aluminium alloy, they ensure seamless **profile alignment, rigidity, and long-term structural integrity** by securely joining vertical and horizontal extrusions. Ideal for professional installations, these connectors simplify assembly while enhancing the durability and performance of door and window systems.

Key Features

- Designed specifically for 50 series sliding doors and windows
- Double-hole design for stable, reinforced connections
- Made from 6063-T5 primary aluminum - lightweight yet strong
- Corrosion resistant with optional surface treatments available
- Seamless integration with profile structures for better sealing
- Supports mold customization for specialized applications
